

CURRICULUM INSIGHT

Sr. Kg. – January 2019

Theme for the month: Transport Time

Learning about Transport generates excitement and curiosity amongst children of all ages.

Through this theme, students will learn about automobiles, trains, airplanes and the various modes of transport in general with an understanding of the primitive and modern systems, as well as be exposed to recent innovations in the sector.

They will learn about their utility, functions and the safety rules to be adhered to. They will also be made aware of the pollution caused by these means of transport and the measures that can be adopted to control it.

Methodology: Effective usage of Audio Visual learning, technology, art and craft and role plays.

Language:

Introduction to Independent writing and the revision of tricky words: more, before, other, were, because, want.

To reinforce the use of new vocabulary, usage of the following words will be encouraged: extremely, exceptionally, too, offer, serve, work, and job.

Life Skills:

Tolerance:

In this month students will strive to be sensitive about the differences and diversity in the world and being responsive to the needs of others.

Numeracy:

Students will learn numerals from 1-90 with number names 18 and 19. We shall also do concepts of grouping, simple addition, shades of pink and work on their logical and reasoning skills.

Science experiment: Students will learn about magnets through hands on experiments.

Dates to Remember:

Date	Activity /Event	Particulars
07/01/2019	Train Model Activity	Students to get 4 empty match boxes for the activity.
25/01/2019	Republic Day Celebration	Students are required to wear tri-coloured clothes.
31/01/2019	Transport Day	Students to bring a well labelled toy vehicle (road, rail, water or air transport) and speak 2-3 sentences on the same for the Show and Tell activity.

A soft copy of the Rhymes for the month will be mailed to you.

At Home You Can:

Explore books related to the theme. By reading story books and making your home a print rich space, you will improve your child's ability to master new learning.

Do encourage your child to share their views on the stories and movies that they may have heard or seen. Ask questions and listen to him/her attentively. It will build his/her confidence and enhance his/her self-esteem. Your child's effort needs a lot of appreciation and positive affirmations to ensure good progress.

Talk to your child about the importance of pollution control by opting for a car pool or using public modes of transport as and when possible. Set an example for your child by switching off the ignition when stopping at signals to explain them the objective of the same.
